ATHLETICS AND EXTRACURRICULAR ACTIVITIES CODE

Memorandum to Parent Regarding Board Policy on Drug-Free Schools

In accordance with federal law, the Board of Education prohibits the use, possession, concealment, or distribution of any drug, or drug-related paraphernalia, or the misuse of a product containing a substance that can provide an intoxicating or mood-altering effect by students on school grounds, in school or school-approved vehicles, or at any school-related event. Compliance with Board Policy 5530 – *Drug Prevention* and Board Policy 5512 – *Use of Tobacco* is mandatory for all students. Any student who violates these policies will be subject to disciplinary action, in accordance with due process and as specified in the *Students' Rights and Responsibilities Handbook*, up to and including expulsion from school. When required by state law, the District will also notify law enforcement officials.

The District provides an age-appropriate, developmentally based, K-12 Comprehensive Chemical Abuse Prevention Program that emphasizes alcohol and other drug education, prevention, intervention, and assistance in a manner that addresses the legal, social and health consequences of alcohol and drug use. The program provides information about effective techniques for resisting peer pressure to use illicit drugs and alcohol. The Board believes that, in order to help students make appropriate health-lifestyle decisions, the schools' program efforts in this regard must develop interdependently with those of home and community. The District is concerned about any student who is a victim of alcohol or drug abuse and will facilitate the process by which she/he receives help through programs and services available in the community. Students and their parents should contact the school principal or counseling office whenever such help is needed.

Rules and Penalties

Preamble:

Participation in athletics and extracurricular activities is a privilege extended to all students who meet the eligibility requirements. One of the requirements is compliance with this Code, which is supportive of the District's commitment to provide a drug-free atmosphere where all students have the opportunity to achieve their academic, athletic, and social potential. To that end, athletic and extracurricular programs promote and reinforce a clear no-use message for students.

Rule 1: Citizenship

Participation in athletics and extracurricular activities is a privilege. Students must earn the right to represent the school by conducting themselves in such a manner that the image of the student, team or organization, school and school district are not tarnished in any way. Any conduct that results in dishonor to the participant, the team or organization, the school, or the school district is prohibited. Dishonorable acts include, but are not limited to, cheating, dishonesty, harassment, intimidation or bullying, hazing, theft, vandalism, disrespect, or violations of the law. Citizenship violations include any violation of the *Student Rights and Responsibilities Handbook* and any violation of the rules established by the coach or advisor.

Voluntary Referral

- A. No Participation Loss

Exceptions to Rules 2 and 3

Notwithstanding the other provisions of the Code, the following shall be permitted:

- A parent or guardian of a student may serve alcohol as permitted by law to the student athlete;
- A student may observe bona fide religious practices; and
- The Athletic Council may modify penalties and provide conditions in its sole discretion where medical or psychological documentation has been presented which sufficiently demonstrates that penalties imposed under this Code will have extreme consequences for a student athlete's well-being.

Notice and Investigation

The principal or designee shall notify the student and the student's parent(s) or guardian(s) of any alleged violation. The principal or designee will investigate the alleged violation by contacting the student, the student's parent(s) or guardian(s) and any other individuals the principal or designee deems necessary in his/her discretion. The principal or designee shall determine the appropriate penalty as soon as reasonably possible after investigating the alleged violation.

The standard used to determine whether a student has violated the Athletics and Extracurricular Activity Code will be the preponderance of evidence standard. The administrator making a determination about whether a student has violated the Code will consider evidence presented to him/her, including assessing the credibility of witnesses. Anonymous sources and complaints will be investigated; however, the anonymity of the source or complaint will be considered when assessing the quality of the evidence. The administrator will determine whether it is more likely than not that the student athlete has violated the Code.

Voluntary Referral Opportunity

Voluntary referral must occur **prior** to any report of violations. Involvement by law enforcement officials negates the option of voluntary referral. The student may use the option of voluntary referral once in his/her academic career at Upper Arlington City Schools.

Voluntary referrals must be made by the student or the student accompanied by his/her parent/guardian. All voluntary referrals must be made within 24 hours unless the violation occurs on a weekend and then the referral must be made first thing on Monday. Voluntary referrals will not result in participation consequences on the first offense only. Students who commit a second Code violation will be subject to an automatic second offense consequence.

Timeliness

All Code assessments/penalties must be completed within 60 days of the violation report. In the event that a Code violation occurs prior to the season/activity period in which the student will compete/participate, the playing time penalty may pass the 60-day requirement. This portion of the Code will be exempt from the 60-day requirement and will be fulfilled by the athlete at the start of the season or student at the start of the activity period. All other portions (assessments, etc.) will need to be completed within 60 days of the violation report.

Consequences

Violations of the three rules (Citizenship, Use, Selling) are cumulative. A subsequent violation of the Code will progress a student to the next disciplinary level (offense). For the purpose of cumulating violations of the Code, there shall be two separate periods of academic life:

1. Grades 7 through 8, and
2. Grades 9 through 12

The first period will begin on August 1st of the students 7th grade year, and will end the last official school day for grade 8; the second period will begin at the end of the first period and will end the last official school date for grade 12. Within each of these two separate periods of academic life, violations of the Code shall be cumulative.

Definitions of Terms Used in the Athletic and Extracurricular Code

- A. **Assessment:** An evaluation by a certified chemical dependency counselor (CCDC) outside of but approved by, the District. The CCDC will make an estimate or judgment as to physical or psychological condition of the student.

J. **Student:** For the purposes of this Code, any student who participates in any athletic program or extracurricular activity. Once a student participates in an athletic program or extracurricular activity, that student is a "student" for the purposes of this Code for the remainder of the period of academic life the student is in at that time. The Code is in effect for the entire period of the student's academic life, whether the student is actively participating in an athletic season or extracurricular activity.

K. **Under the influence:** Manifesting signs of chemical misuse, such as staggering, reddened eyes, odor of chemicals, nervousness, restlessness, memory loss, abusive language, falling asleep in class, or any other like behavior not normal for the particular student.

L. **Voluntary Referral:** A student may voluntarily report a code violation to any of the following: their coach, a staff member, their counselor, or an administrator. Any illegal conduct of any kind where the police are involved and arrest has been made, will be considered a code violation and the voluntary referral option is not available.

NCAA College Athletic Eligibility Requirements

Students planning to participate in Division I or Division II college athletics must meet NCAA eligibility requirements. The NCAA Eligibility Center determines athletic eligibility. Applications and regulations are available in the College Center. It is important that students and parents familiarize themselves with these requirements as early as possible in their high school careers.

Students are encouraged to apply to the NCAA Eligibility Center: <http://www.eligibilitycenter.org> during the summer preceding their senior year.

Academic Eligibility Policy

Students must meet the following academic requirements in order to participate in athletics, extracurricular or co-curricular activities in grades 7-12.

- A student must earn at least a 2.0 grade point average (GPA) in order to be eligible for participation. The GPA will be applied separately for grades 7-8 and for grades 9-12 and calculated each grading period.
- A student's eligibility will be determined according to his or her GPA for each nine-week grading period. Because of the comprehensive nature of exams, semester and final exams are not calculated into the nine-week GPA. A student's eligibility will be determined by examining each nine-week GPA independent of prior grading periods. The individual nine-week GPA's value will be used by itself to determine a student's eligibility. Eligibility can be maintained, gained, or lost each grading period.
- 7th grade eligibility will be determined at the first quarter grading period.
- All incoming 7th graders are eligible to participate until the end of the first quarter grading period.

An exception may be made for an individual student with special needs and/or extenuating circumstances. An eligibility board will review such situations on an individual basis and may waive certain requirements as appropriate. This provision is intended to meet unique situations of students with special or adjusted educational needs. The eligibility board will hear requests of students and/or parents in regards to special needs, extenuating circumstances such as long-term illness, and/or appeals regarding eligibility.
